

# MOHIT SINGH

Full Stack Developer | MERN Stack | React.js | Node.js | Express.js | MongoDB  
Faridabad, India | 8383984698 | mohitsingh2003uk@gmail.com | [linkedin.com/in/mohit-singh-41167337a](https://www.linkedin.com/in/mohit-singh-41167337a)

## SUMMARY

**Full Stack Developer** with hands-on experience in the **MERN Stack** and **Google Apps Script**, building responsive web apps and automating workflows. Completed a **10-month Full Stack Web Development** certification with skills in frontend, backend, databases, Git, and GitHub. Proficient in using **ChatGPT** and **Google Gemini** to enhance development and productivity.

## SKILLS

|                         |                                                                                                         |
|-------------------------|---------------------------------------------------------------------------------------------------------|
| Frontend                | HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design, Bootstrap                              |
| Backend                 | Node.js, Express.js, REST APIs, Google Apps Script (JavaScript)                                         |
| Database                | MongoDB, Mongoose                                                                                       |
| Version Control         | Git, GitHub                                                                                             |
| API Integration         | REST APIs, Fetch API, Axios                                                                             |
| Development Tools       | Visual Studio Code, Vite, npm, Postman                                                                  |
| Programming Languages   | JavaScript, HTML, CSS                                                                                   |
| AI-Assisted Development | ChatGPT, Google Gemini                                                                                  |
| Core Concepts           | CRUD Operations, Authentication (JWT), Component-Based Architecture, Responsive Design, API Integration |

## WORK EXPERIENCE

Shruti Infotech Pvt. Ltd. | Dec 2025 – Present

### Data Analyst

- Developed and maintained workflow automation using **Google Apps Script (JavaScript)** to streamline business processes and reduce repetitive manual tasks.
- Created, modified, and optimized Apps Script solutions for spreadsheet automation and internal business operations.
- Utilized **ChatGPT** and **Google Gemini** to assist with code generation, debugging, script optimization, and rapid development of automation solutions.
- Collaborated with team members to understand business requirements and implement efficient automation workflows.
- Maintained existing JavaScript-based automation scripts by troubleshooting issues, improving performance, and adding new features.
- Worked with Google Sheets and structured business data to support internal operations and improve workflow efficiency.
- Followed coding best practices, documented automation processes, and ensured the reliability of deployed scripts.

## PROJECTS

**Jewellery Website** | [gh repo clone Mohitcodingz/jewellery-website](https://github.com/Mohitcodingz/jewellery-website)

Tech: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, Bootstrap

- Architected and developed a responsive, visually high-end e-commerce web application featuring clean navigation and interactive product displays tailored for luxury retail.
- Implemented robust front-end components using clean HTML, CSS, and dynamic JavaScript functionality to ensure seamless user interactions and cross-device compatibility.
- Optimized asset loading and rendering performance for high-resolution product imagery, drastically reducing page load times and elevating the overall user experience.
- Streamlined project organization and version control workflows utilizing Git, ensuring scalable and clean codebase management.

## EDUCATION

|                                                                                     |             |
|-------------------------------------------------------------------------------------|-------------|
